

If you've been affected by the current Federal Government Shutdown, the Guardian Direct® team is here to help.

We can help you prevent a policy from lapsing during the shutdown period by giving you more time to pay your premiums, upon your request.

Payments deferred during the shutdown will not be due until 60 days after the shutdown ends.

If we do not hear from you, your premium payments will continue to be due as currently scheduled.

Please [contact us](#) if we may assist you.

Sincerely,

The Guardian Direct Team
